HOST PAGE DISCOVERY

SUMMARY

This web page recaps the work completed and my overall experience in MACA 1840, Web Design 2. While it's main focus is the class, my page also shows a little bit of me and my interests.

Define the problem- incorporating all the requirments into an attractive, cohesive, host web page while capturing some of me in the style.

Brainstorm ideas- it didn't take me long to decide what direction I wanted to go toward. I was making little teacup fairy gardens and decided my page would have an enchanted, whimsical theme.

Look for inspriation- inspiration came from photos I took during a fall camping trip, Pinterest, internet searching of royalty free photos.

Gather assets-my assets are primarily my bootstrap template, Google Fonts, color palattes from Abobe Colors and photos that I took myself or borrowed from a royalty free site.

My adjectives- enchanted, whimsical, fun, peaceful, colorful. Thse adjectives, at a glance, appear to contradict each other but, that is the point of the enchanted theme. Color and fun can bring peace just as whimsical can be calming. It's all about lightening up a bit

Template Selection Process- because I wanted to use hero images and make my page very visaul, it was very easy to select a template. When I saw Tinker, I knew right away it was the one that was best suited for my vision.
